KIRKWOOD HOME & LANDSCAPE
Julie's Garden Design

Spring greetings!

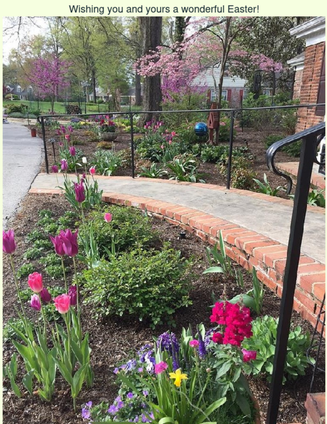
Spring has arrived and we are in full swing getting your gardens and front porches ready for the Easter holiday! The fine gardening and landscaping teams have been busy cleaning, fertilizing and mulching the gardens.
It's an exciting time of the year and we always look forward to seeing flowers again!

Our construction team has been remodeling kitchen and baths over the last several months.
Let the planning begin! This is a before picture of a dark, outdated kitchen in a historic Central West End home.

And the reveal...
After replacing rotten floorboards and removing walls, the guys got down to business and designed this kitchen beautifully. It is so light and airy, it beckons you to gather around the island and enjoy time here now.

Nothing says spring like a few pots filled with wonderful color! We have faced many challenges over the last two years, but we are flourishing and want to make sure you love your gardens!

Wishing you and yours a wonderful Easter!



You may see some new faces in the garden this spring! We have been fortunate to add several new members to our talented team!
We will make sure to introduce you, your home and your gardens to them!
We appreciate your business!

We are a unique 3 function company that can handle everything for your home!
