KIRKWOOD HOME & LANDSCAPE

Julie's Garden Design

Spring is right around the corner!

Forced branches are a great way to brighten your home during the dreary months. Lilac, cherry, forsythia, quince and willow are a few of the stems we enjoy forcing. Just cut select branches, smash the bottom of the stem and place in water...that's it!

Our construction team removed walls and changed the entire floorplan before completely renovating this amazing kitchen! A picture is worth a thousand words, so I'll leave it at that.

This sweet little house has gotten a makeover! We installed the new walk, front patio and porch eave. The inside was completely updated as well. Next up is a new garden!

We will begin garden cleanup, fertilizing and mulching as soon as the soil dries out a bit.
It won't be long until we have flowers again!

We appreciate your business!

We are a unique 3 function company that can handle everything for your home!
