Kirkwood Home & Landscape and Julie's Garden Design Newsletter

Sweet sweet summertime!

It's the dog days of summer for us, but the flowers are loving all of this heat and rain!
We hope you are able to enjoy your gardens while soaking up the summer weather!

We are getting a facelift at our office!
The hardscape team installed a couple of walls and captured our rainwater runoff so we can create a native rain garden.
This rendering was created on our Vizterra software and we are excited to see it come to life!

This client has taken advantage of all divisions of our company and is renovating the inside of their home as well as the gardens!
Here is a peek at their new kitchen!
We have plans to feature the entire renovation in an upcoming newsletter, so keep an eye out for that!

It's hard to believe, but we are preparing for the fall and winter season already!
Soon we will be refreshing your gardens for fall and planting tulip bulbs!
Let us know if you have any special requests!

We appreciate your business!

We are a unique 3 function company that can handle everything for your home!
