KIRKWOOD HOME & LANDSCAPE

Julie's Garden Design

Spring Greetings!!

Now that spring cleanup is under way, it's time to have a little fun!
Today we begin planting pots with the cool season annuals!
They look delicate, but they can handle the cool weather.

Our construction division completely renovated this beautiful kitchen!
They removed a staircase, added the distressed tounge and groove ceiling and built the island out of 100 year old reclaimed barn wood.
That's just a few of the unusual features that made this project special!
Call to schedule an appointment for your next project!

It is so nice to see flowers after the winter season!!
We hope you are as excited for early spring pots as we are!

The hardscape team replaced a century old collapsing wall and this is the finished outcome!
Call to schedule an appointment for any hardscape or water control projects you may have.

We appreciate your business!

We are a unique 3 function company that can handle everything for your home!
