KIRKWOOD HOME & LANDSCAPE

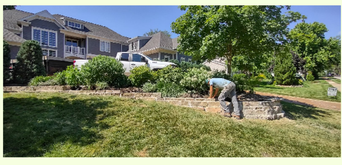
Julie's Garden Design

Sweet, sweet summertime!

We hope you are enjoying all that summer has to offer. The color in the gardens has been remarkable after the spring rains!

We finished planting our new garden designs just in time for the heat! Keep watering friends, the temperatures keep climbing. The good news is that the plants love it more than we do!

Our Hardscape crew gets the job done despite the heat! They are rebuilding a dry stack retaining wall with permanent mortar that will accomodate drainage.



The construction divison gave this home a facelift by adding a new front porch with an arched barrel roof to help create more character. Such a warm welcome to greet guests and it adds nice dimension.

Stay hydrated and enjoy the season of porch swings, swiming pools, fireflies and of course, flowers!

We appreciate your business!

We are a unique 3 function company that can handle everything for your home!
