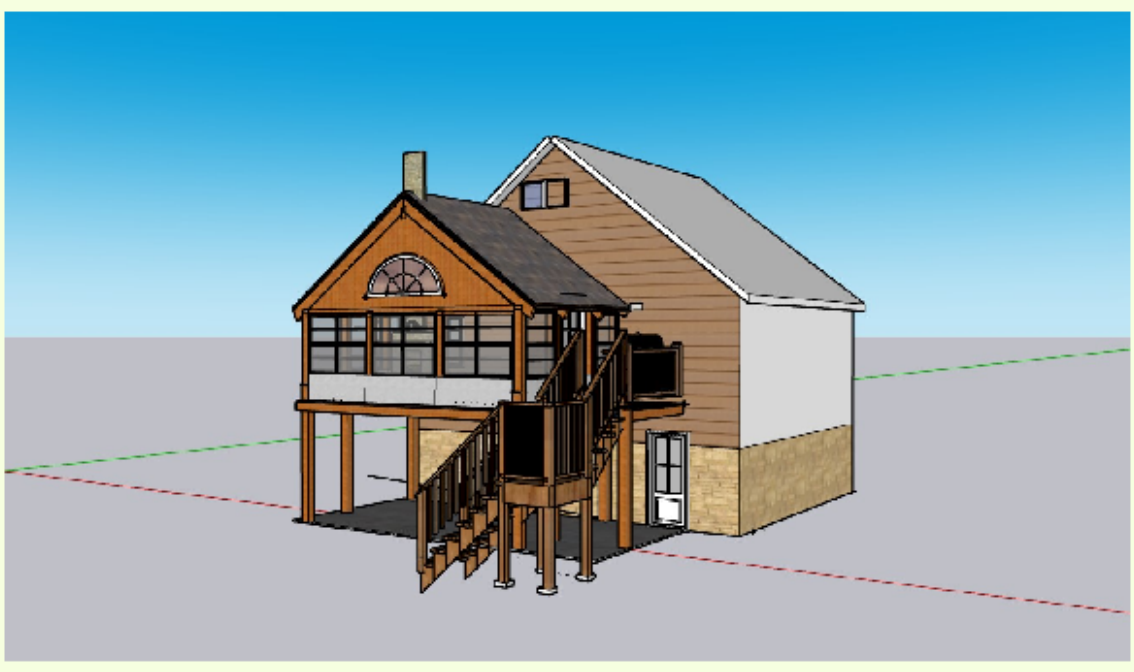
KIRKWOOD HOME & LANDSCAPE

Julie's Garden Design

Spring is right around the corner, friends!
It won't be long until the tulips and daffodils burst to life!

Our construction team is currently working on a three-season room addition to a stunning Kirkwood home. We're finalizing design details and getting ready to submit them to the Architecture Review Board. We are with you every step of the way to help you turn your vision into reality!

Additionally, our hardscape team will be installing a stone retaining wall at the back of the yard, creating a shaded outdoor gathering space beneath the three-season room.



This project was built for fun! Our hardscape team installed new retaining walls and a concrete pad so this client could have a basketball/pickleball court. Stay tuned because we are not done with this full property makeover!

This weather has us looking forward to flowers! The team returns to begin cleaning up the gardens in a couple of weeks, so be on the lookout for us.

We appreciate your business!

We are a unique 3 function company that can handle everything for your home!
